**Subject:** Mahdavi- week of Sept 14

Looking ahead at next weeks week-in-a-glance:

- 1- Peterson Ranch Mitigation Bank: I need to devote a good amount of time next week to finishing up any outstanding pieces for review. This bank is poised to be approved/signed by all agencies by end of Sept/ Oct. (Is there a "closing process" EPA follows to wrap these up?)
- 2- Ray Mine: Will begin review of the studies submitted as part of the supplemental AA.
- 3- HSRA: Follow-up with McLoughlin to obtain approval for Railvolution, the Dallas Conference in late October.

I will be out of office at ICOET week of Sept 21. Returning Sept 28.
